Service Doc

List Of classes analysed for the given Path :----

bobby.Department

bobby.DepartmentService

bobby.DS

bobby.ServiceException

bobby.Student_s

bobby.Test

bobby.bobby1.emp

bobby.bobby1.Test1

Table Regarding Class,Methods with respect to their executables paths

Name(Names)	value
Path	/Department/setName
Class-Name	bobby.Department @injectSessionScope:No @injectApplicationScope:No @injectRequestScope:No
Method-Name	setName
Parameters :	class java.lang.String RequestParameter:NO
Return-Type	void
--------------------------------------	--------------------------------------
Path	/Test/mul
Class-Name	bobby.Test @injectSessionScope:YES @injectApplicationScope:No @injectRequestScope:No
Method-Name	mul
Parameters :	int RequestParameter:NO int RequestParameter:NO
Return-Type	int
--------------------------------------	--------------------------------------
Path	/Test1/mul
Class-Name	bobby.bobby1.Test1 @injectSessionScope:YES @injectApplicationScope:YES @injectRequestScope:No
Method-Name	mul
Parameters :	int RequestParameter:NO int RequestParameter:NO int RequestParameter:NO
Return-Type	int
--------------------------------------	--------------------------------------

Name(Names)	value
Path	/Student_s/getName
Class-Name	bobby.Student_s @injectSessionScope:No @injectApplicationScope:No @injectRequestScope:No
Method-Name	getName
Parameters :	None
Return-Type	class java.lang.String

--------------------------------------- ---------------------------------------

Path	/Test/add
Class-Name	bobby.Test @injectSessionScope:YES @injectApplicationScope:No @injectRequestScope:No
Method-Name	add
Parameters :	int RequestParameter:NO int RequestParameter:NO
Return-Type	int

--------------------------------------- ---------------------------------------

Path	/emp/getName
Class-Name	bobby.bobby1.emp @injectSessionScope:No @injectApplicationScope:No @injectRequestScope:No
Method-Name	getName
Parameters :	None
Return-Type	class java.lang.String

--------------------------------------- ---------------------------------------

Path	/Test/sub1
Class-Name	bobby.Test @injectSessionScope:YES @injectApplicationScope:No @injectRequestScope:No
Method-Name	sub1
Parameters :	int RequestParameter:YES int RequestParameter:YES
Return-Type	int

--------------------------------------- ---------------------------------------

Path	/Test/sub
Class-Name	bobby.Test @injectSessionScope:YES @injectApplicationScope:No @injectRequestScope:No

Name(Names)	value
Method-Name	sub
Parameters :	int RequestParameter:NO
	int RequestParameter:NO
Return-Type	int
--------------------------------------	--------------------------------------
Path	/Test1/add
Class-Name	bobby.bobby1.Test1
	@injectSessionScope:YES
	@injectApplicationScope:YES
	@injectRequestScope:No
Method-Name	add
Parameters :	int RequestParameter:NO
	int RequestParameter:NO
	int RequestParameter:NO
Return-Type	int
--------------------------------------	--------------------------------------
Path	/Test1/sub
Class-Name	bobby.bobby1.Test1
	@injectSessionScope:YES
	@injectApplicationScope:YES
	@injectRequestScope:No
Method-Name	sub
Parameters :	int RequestParameter:NO
	int RequestParameter:NO
Return-Type	class java.lang.String
--------------------------------------	--------------------------------------
Path	/DepartmentService/getDepartment
Class-Name	bobby.DepartmentService
	@injectSessionScope:No
	@injectApplicationScope:No
	@injectRequestScope:No
Method-Name	getDepartment
Parameters :	None
Return-Type	interface java.util.List
--------------------------------------	--------------------------------------
Path	/Department/getCode
Class-Name	bobby.Department
	@injectSessionScope:No
	@injectApplicationScope:No
	@injectRequestScope:No
Method-Name	getCode
Parameters :	None
Return-Type	int

Name(Names)	value
---------------------------------------	---------------------------------------
Path	/Department/setCode
Class-Name	bobby.Department @injectSessionScope:No @injectApplicationScope:No @injectRequestScope:No
Method-Name	setCode
Parameters :	int RequestParameter:NO
Return-Type	void
---------------------------------------	---------------------------------------
Path	/DepartmentService/addDepartment
Class-Name	bobby.DepartmentService @injectSessionScope:No @injectApplicationScope:No @injectRequestScope:No
Method-Name	add
Parameters :	class bobby.Department RequestParameter:NO
Return-Type	void
---------------------------------------	---------------------------------------
Path	/Test/getStudent
Class-Name	bobby.Test @injectSessionScope:YES @injectApplicationScope:No @injectRequestScope:No
Method-Name	getStudent
Parameters :	class com.thinking.machines.webrock.services.RequestScope RequestParameter:NO class com.thinking.machines.webrock.services.SessionScope RequestParameter:NO class com.thinking.machines.webrock.services.ApplicationScope RequestParameter:NO
Return-Type	void
---------------------------------------	---------------------------------------
Path	/Test1/emp1
Class-Name	bobby.bobby1.Test1 @injectSessionScope:YES @injectApplicationScope:YES @injectRequestScope:No
Method-Name	emp1
Parameters :	class bobby.bobby1.emp RequestParameter:NO
Return-Type	void
---------------------------------------	---------------------------------------
Path	/Department/getName

Name(Names)	value
Class-Name	bobby.Department @injectSessionScope:No @injectApplicationScope:No @injectRequestScope:No
Method-Name	getName
Parameters :	None
Return-Type	class java.lang.String
---------------------------------------	---------------------------------------

Class-Name   bobby.Department

@injectSessionScope:No

@injectApplicationScope:No

@injectRequestScope:No
